

SACEMA: Funding Opportunity

BSc Hons with a focus in Biomathematics

Are you:

- A final-year student in a mathematical subject?
- Looking for funding opportunities in applied research?
- Interested in applying your expertise in biological, ecological, or a medical research, but unsure how these sciences use mathematics?
- Keen to use your skills to address pressing health problems in Africa?

Then read on:

- SACEMA offers postgraduate courses/modules in mathematics, epidemiology, biostatistics, global health and biochemistry as part of qualifications awarded by Stellenbosch University.
- Students have the opportunity to work on research projects of direct relevance to public health in Africa.
- Projects are supervised by our researchers in the mathematical sciences and/ in biological or biomedical sciences.

You are invited!

[Click here](#) to join the virtual presentations at the following times:
17 August 2021 @ 15h00
25 August 2021 @ 11h00
