SACEMA: Funding Opportunity

BSc Hons with a focus in Biomathematics

➢ A final-year student in a mathematical subject?
➢ Looking for funding opportunities in applied research?
➢ Interested in applying your expertise in biological, ecological, or a medical research, but unsure how these sciences use mathematics?
➢ Keen to use your skills to address pressing health problems in Africa?

Then read on:

➢ SACEMA offers postgraduate courses/modules in mathematics, epidemiology, biostatistics, global health and biochemistry as part of qualifications awarded by Stellenbosch University.
➢ Students have the opportunity to work on research projects of direct relevance to public health in Africa.
➢ Projects are supervised by our researchers in the mathematical sciences and/or biological or biomedical sciences.

You are invited!

Click here to join the virtual presentations at the following times:

17 August 2021 @ 15h00
25 August 2021 @ 11h00

For more information on the BSc Honours programme, click on the links below:

➢ Department of Mathematical Sciences
➢ AIMS programme information
➢ Admission to study at SU
➢ NRF scholarship information

Closing Date: Funding

• 01 September – if Financial Means test needed
• 30 October - otherwise

The South African Centre for Epidemiological Modelling and Analysis (SACEMA) is a national DSI-NRF Centre of Excellence.

Our core mission is to improve health in South Africa and across the continent through epidemiological modelling and analysis. We offer interdisciplinary postgraduate training and a stimulating research environment.
