

Save the date: MMED 2023

Clinic on Meaningful Modelling of Epidemiological Data

26th June – 8th July

Muizenberg, South Africa

MMED is a 2-week modelling clinic that emphasizes the use of data in understanding infectious disease dynamics. Participants conduct modelling projects informed by epidemiological data that address practical questions in a meaningful way.

Key dates:

- Application opening on **10th March** <https://www.ici3d.org/mmed/apply>
- Application deadline **10th April**
